## Delphi launches a new crimping machine with 8 dies

- An innovative tool to crimp hoses of A/C and cooling systems in different sectors
- The crimping system with 8 dies allows elimination of pressure leak from the fittings
- The crimper can be open thus allowing the crimping of special and difficult elbows.

## Two versions available

- Manual pump and integrated piston, PN AT41571
- With hydraulic handle in titanium alloy, hose and adapter, PN AT41574, to be matched to the already existing pneumo-hydraulic power unit (PN AT41374)

PN AT41571

PN AT41574

Ideal for elbow fittings !!
